

Let's Get Your Camera Ready!

1

Remove the Plastic

- Carefully peel off the plastic cover by lifting it from one of the corners. Make sure to avoid touching the camera lens directly to prevent smudging.

2

Remove the Back Cover

- Locate the two dotted triangles on the back of your camera device.
- Push down on the dotted triangle to release and remove the back cover.

3

Insert Batteries

- Insert 4 AA batteries into the battery compartment.

4

Secure the Back Cover

- Slide the back cover back onto the camera until it clicks into place, ensuring it is securely fastened.

5

Ensure the Camera is Powered On

- Check the indicator light—you should see a solid green light for 3 seconds to confirm the camera is powered on.

6

Enable Bluetooth Pairing Mode

- Check the indicator light—it should blink green until pairing is complete.
- If Pairing Mode doesn't activate — Press and hold the pair button for 3 seconds on the side of the camera device to put the camera in Bluetooth pairing mode.
