Forward Looking Statements

This presentation contains certain statements that constitute "forward-looking statements", including but not limited to statements that are predictions of or indicate future events, trends, plans or objectives, based on certain assumptions or which do not directly relate to historical or current facts. Such forward-looking statements are based on management's current expectations and beliefs and are subject to a number of risks and uncertainties that could cause actual results to differ materially from the future results expressed, forecasted or implied by such forward-looking statements. For a more complete list and description of such risks and uncertainties, refer to Technicolor's filings with the French Autorité des marchés financiers.
